Committee Charge

8/31/2011 To stimulate evidence-based effective and equitable teaching, learning, and assessment in undergraduate education in the mathematical sciences. CTUM coordinates dissemination of the MAA's Instructional Practices (IP) guide, which is focused on classroom practices, assessment practices, course design practices, and the role of technology and equity in each. The committee facilitates collaboration, especially on matters related to the IP guide, between its working groups and its two subcommittees: Assessment, and Technologies in Mathematics Education. The committee also coordinates its efforts with other professional societies serving universities, two-year colleges, and K-12 schools, including the NCTM. The committee promotes dissemination of inclusive culturally responsive teaching strategies and practices identified by the Association of American Colleges & Universities as High-Impact Educational Practices, including via the IP guide.

Committee Composition

12-15 members (not including subcommittees), includes AMS rep, NCTM rep, with at least one spot reserved for faculty from 2-year institutions.
