

Overview

I have active leadership experience at all levels of ERAU-W as well as in my professional community. I will summarize my most impactful service first, then describe all of my service in the past five years while at ERAU-W.

Upon starting at ERAU-W, I joined the College of Arts & Science's (COAS) Faculty Council as well as chaired the ERAU-W Faculty Senate Academic Technology committee. These service opportunities allowed me to begin building collegial relationships in other departments in COAS as well as colleagues in College of Aeronautics (COA) and College of Business (COB). After the sudden passing of Dr. Karen Keene in February 2023, I stepped up to serve as Associate Chair for the department of Mathematics, Science, and Technology. After a failed department chair hiring search and Beverly Wood stepping down from temporary chair duties, I was both Acting Department Chair and Associate Department Chair starting January 2024. After the successful chair search yielded Timothy Smith as the new Department Chair starting August 2024, I returned to just Associate Department Chair and supported his transition from ERAU-DB to ERAU-W. In August 2025 I transitioned from Associate Department Chair as I became Program Chair for the newly established Bachelor in Data Science and needed to teach many of the specialty courses for the program.

Outside of Embry-Riddle, I am involved in the Mathematical Association of America (MAA), the Special Interest Group on Research in Undergraduate Mathematics Education (RUME), and the Special Interest Group on Statistics and Data Science Education (SDS-Ed). The MAA is the largest national association of American and Canadian mathematicians with a membership of over 24,000. RUME was the first Special Interest Group of the MAA and is the largest national association of collegiate mathematics education researchers in the United States. SDS-Ed, originally focused solely on statistics education, is one of the largest national associations for Data Science education in the United States. I serve as a member on the MAA Council on Teaching and Learning, a member on the MAA Committee on Teaching Undergraduate Mathematics (CTUM), and as the chair for the Subcommittee on Technology in Mathematics Education (STME). These groups allow for interaction and influence of college educators, especially with relation to technology. I have served small committees in RUME as a stepping stone toward running for a leadership role within the research community, though my recent change to leading the Bachelor in Data Science and shift to Educational Data Science research has led to more interaction in SDS-Ed.

I have itemized my service by category and provided a brief explanation for each below.

University

- **Grant Reviewer** for ERAU Faculty Innovative Research in Science and Technology (FIRST) grant and ERAU-W Faculty SEED grant, 2022–present.

Read and provided feedback on grants submitted by ERAU-W faculty.

- **Educational Experiences Member** for the ERAU-W Quality Enhancement Plan committee, 2023–2025.

Evaluated the Program Writing Assessments and Writing Instruction Plans submitted by ERAU-W, ERAU-DB, and ERAU-PS.

- **Academic Technology Committee Chair** for ERAU-W Faculty Senate, 2022–2025.

Participated in the systematic review of various end-of-course evaluation vendors. Interviewed incoming Director of IT Service Management & Worldwide IT Services

College

- **Data Management** for ERAU-w COAS Faculty Activity, 2022–present. *Developed Qualtrics survey and programming scripts to organize and standardize faculty reporting of activity. Submits monthly and 6-month reports of faculty activity as well as academic year activity reports to faculty upon request.*
- **Appeal Committee Member** for ERAU-w COAS, 2023–2025.

Negotiated grade appeal process for appeals that arose from instructors in the department of Mathematics, Science, and Technology.

- **Hiring Committee Member** for tenured Department Chair for Human Factors and Social Sciences Department.
- **Faculty Council Member** for ERAU-W COAS, 2022-2023. Note: Term ended after one year due to accepting role as Associate Department Chair for Mathematics, Science, and Technology.

Discussed issues brought up by faculty, co-led efforts to establish an ERAU-W COAS Faculty Council award, and provided COAS leadership feedback on proposals.

Department

- **Associate Chair** for department of Mathematics, Science, and Technology, 2023–2025.

Program chair for Computer Science, Data Science, Astronomy, and Chemistry courses. Instituted various programming scripts to improve admin efficiencies such as listing instructors by course for a term and organizing instructor end-of-course evaluations by course.

- **Minor Coordinator** of Applied Mathematics (2022–2025) and Applied Data Science (2023–present).

Attended COAS program meetings, advertised for minors, and answered any minor questions such as course equivalencies. Led development of Applied Data Science minor and one of its required courses (CSCI 251). Took over the minor after the sudden departure of Anastasia Angelopoulou.

- **Course Mentor** for CSCI 251 (2023–present), DSCI 201 (2024–present), DSCI 411 (2025–present), DSCI 413 (2026–present), GNED 103 (2021–2022), and MATH 106 (2021–2022), MATH 111 (2022–2025), MATH 112 (2023–2025), MATH 412 (2022–present), MATH 502 (2021–2025), MATH 546 (2021–2024), and RSCH 395 (2024–present).

Contacted instructors at beginning of term, provided all course updates, answered any adjunct issues with courses. Course Developer for CSCI 251, DSCI 411, DSCI 413, MATH 111, RSCH 395. Shifting responsibilities due to changing availability of other faculty expertise in Mathematics, Statistics, and Data Science.

- **Hiring Committee Chair** for Department of Mathematics, Science, and Technology tenure-track candidate in Physical Science (2024–2025).

Organized committee meetings, provided initial review of all candidate qualifications, organized application packets, met with all 1st and 2nd waves of candidates, and contacted all references.

- **Hiring Committee Member** for 3 searches for Department of Mathematics, Science, and Technology: tenured candidate in Computer/Data Science (2026), tenured Department Chair (2024), and tenure-track candidate in Data Science (2022–2023).

Read application packets, met with all 1st and 2nd waves of candidates, contacted all references (tenured Department Chair search only), and provided evaluation for final recommendation to dean.

Academe

- **MAA Council Member** for Mathematical Association of America Council on Teaching and Learning, 2022–present.

Provide updates and guidance for national society Mathematical Association of America. Represent interests on technology in undergraduate mathematics education.

- **MAA committee member** for Mathematical Association of America Committee for Teaching in Undergraduate Mathematics (CTUM), 2023–present.

Stimulate evidence-based effective and equitable teaching, learning, and assessment in undergraduate education in the mathematical sciences.

- **MAA Subcommittee Chair** for Mathematical Association of America Subcommittee on Technologies in Mathematics Education (STME), 2022–present. Member only 2021–2022.

Organized activities to update college-level math educators on most recent developments in technology for undergraduate mathematics education. Led bi-yearly meetings.

- **RUME Committee Member** for the Special Interest Group of the Mathematical Association of America on Research in Undergraduate Mathematics Education (SIGMAA on RUME) for leadership nominations (2022–2025) and annual conference programming (2020–2022).

SIGMAA on RUME is the premier national research group on college-level mathematics education. The annual conference programming committee provides additional reviews on potential conference proceedings and reviews all conflicting proceedings reviews. The leadership nominations committee solicits and evaluates nominees for any open officer positions within the group. The committee then sends forward the final ballot of nominees to the RUME secretary for general voting.

- **NSF Grant Reviewer** panelist for National Science Foundation grant panels, 2022–present.

Serving on an NSF panel requires careful reading of approximately 9 grant proposals. For 2 of these proposals, you lead all discussion and provide a panel review for the proposal. For 5 of these proposals, you act as a secondary reader that provides critical review of the proposal. For the rest of the proposals, you act as a tertiary reader that provides overall review of the proposal.

- **Journal Reviewer** for Frontiers in Psychology (2026–present), Scatterplot (2025–present), International Journal of Innovative Science and Modern Engineering (2024–present), Educational Studies in Mathematics (2022–present), Mathematical Thinking and Learning (2021–present), International Journal of Research in Mathematics Education (2020–present), Journal of Assessment in Higher Education (2019–present), Journal of Mathematical Behavior (2017–present), and Problems, Resources, and Issues in Mathematics Undergraduate Studies (2017–present).

Completed approximately 5 reviews per academic year in the fields of Mathematics Education and Educational Data Science.
